16 th - 23 rd July		Short Reports issued.

Your child will also receive in class departmental assessments in order to judge progress in a particular topic in order for responsive teaching to take place. This is in the style of reteach, consolidate and extend. A reteach task requires a lot of teacher input whereas an extend is designed to stretch and challenge.

Your child will receive regular homework as per homework timetable. Homework is such an integrated part of the learning here at Balfour. Homework will challenge students to apply themselves independently, help prepare for future learning, recapping previous learning and a great way for us to build effective learners when it comes to revision.
